

CREATING IMAGES FOR CHYRON ISQ SERVER

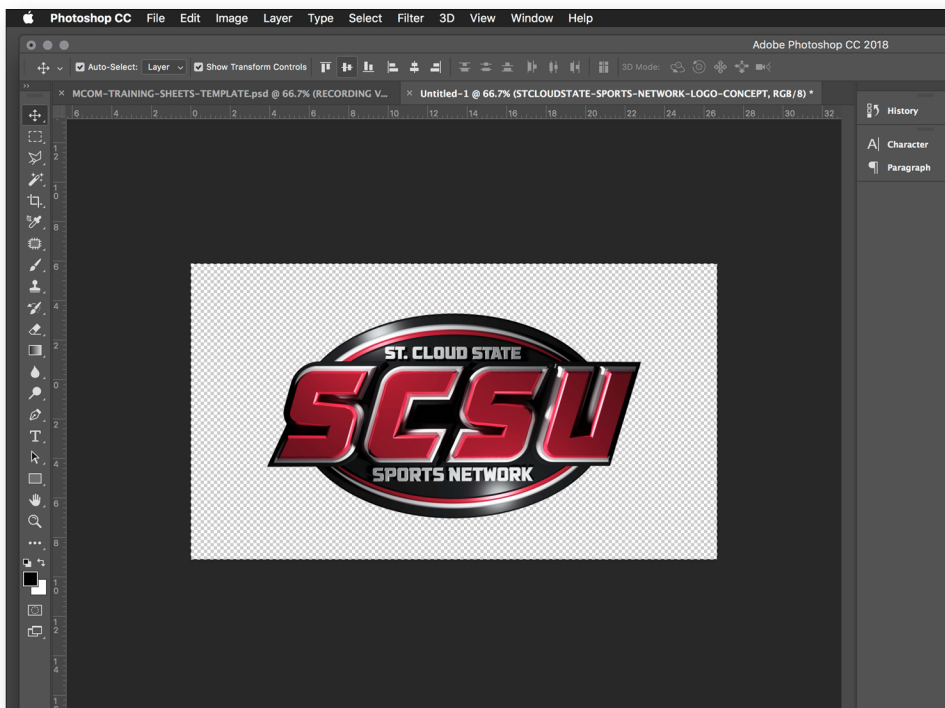

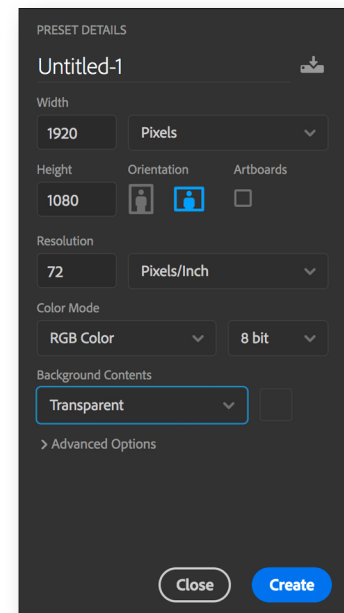

STEP 1 Open Adobe Photoshop.

STEP 2 Go to the “File” menu and create a new document that is 1920 pixels by 1080 pixels 72 dpi with a transparent background.

STEP 3 Drag the source image into the Photoshop document.

Use the move tool  to scale and position the image so that it is centered and looks proper. Use the alignment tools  to center the image as necessary.

STEP 4 Go to the “File” menu and choose “Save As...” Choose “PNG” for the format and click “Smallest file size” when the “PNG Format Options” window opens. Press “Ok.”
