

DOWNLOADING VIDEOS FROM CNN

Step 1 Open **Firefox** and go to <https://newssource.ns.cnn.com>.

NEWSOURCE

Step 2 Sign in using the UTVS login credentials.

Sign in

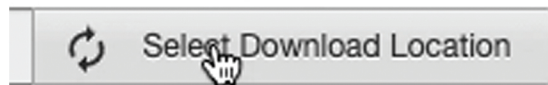

Step 3 Locate the news story to download and press the Download icon.

The screenshot shows the CNN NewsSource interface. On the left is a 'Sign in' form. The main content area displays a list of news stories under the heading 'All Stories'. Each story includes a thumbnail image, a title, a timestamp, and a 'Media' icon with a download arrow. A hand cursor is shown clicking the download icon on the first story.

Step 4 Click the **HD 1080i NTSC** button under Download Options. Click the **Select Download Location** button.

The 'Download Options' dialog box is shown. It has a 'Select a download location' dropdown menu and a 'Select Download Location' button. Under 'Select a download location', the 'HD 1080i NTSC' option is selected. Other options include H264 HD NTSC, H264 HD PAL, SD 16:9 NTSC, SD 4:3 NTSC, and None. There are also checkboxes for 'MP3 Audio Only' and 'Metadata XML'. A large 'HD 1080i NTSC' button is highlighted with a hand cursor.

Step 5 Click **Launch Signiant App**. Press the **Always allow...** checkbox. Click the **Open Signiant App** button.

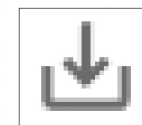

The Signiant App download and launch buttons are shown. The 'Download Signiant App' button is highlighted with a hand cursor. Below it is a link to 'Launch Signiant App'.

The 'Open Signiant App' dialog box is shown. It asks for permission to open the application. The 'Always allow newssource.ns.cnn.com to open links of this type in the associated app' checkbox is checked. The 'Open Signiant App' button is highlighted with a hand cursor.

Step 6 Click **DataHD** under Locations. Press the **Save** button.

The screenshot shows a file browser window with the 'DataHD' location selected. The file 'BHND_PO-5...2931c.mpg' is visible in the main pane. The 'Save' button is highlighted with a hand cursor.

Step 7 Click the **Download Manager** icon to view Active Downloads.

The 'Download Manager' window is shown. It displays an 'Active Download' for 'PO-57TU' with a status of 'Active' and progress of '28.65MB/145.26MB - 20%'. Below it, the 'Downloaded Items' section shows 'No items downloaded'.
