

UNREGISTERING LYRIC & CHYRON CONFIG

STEP 1 Double click on “LyricUnregister.exe” located in the “Lyric 8.6” folder in the “Chyron” folder located in the “Program Files (x86)” folder on the “C:” drive of the Chyron Mosiac.

STEP 2 Open the Lyric application, then go to the “Config” menu and choose “Hardware.” Go to the “Setup Output Configuration” tab and ensure the Video Output Standard is “1080i/59.94.” Press “Ok” when finished.
